1.9) What were the best aspects of this course?

- Love Ceara, she is the best!!!!

- Maybe the assessment requirements can be explained more clearly.

- The professor and tutor explain the theories of reading teaching clearly. The assignments are also helpful in helping me grasp the content of the class.

- The teachers are very passionate in class and the explanation is very clear. I can feel that all teachers love teaching this course very much

- To help future students how to improve reading comprehension.

1.10) What improvements would you suggest?

- No

- The presentation occupied the whole tutorial, which made me feel that it was a waste of time and tuition.
  Rather than listening to one pre after another, I'd rather do some activities related to the week's content in class
  It would be better if the assessment was given to a clearer sample

- emmm
